SOUTHERN IRAQ CONSOLIDATED FACILITY

Located at the crossroads of Iraq's largest oil and gas fields, NAWAH Supply & Distribution's consolidated storage facility services the pipe, valve, flange, fitting and other oil related product and equipment needs of the world's leading oil companies operating in Iraq. NSD's operational headquarters is situated in Zubair, Iraq's Al Fayha logistics compound, which stretches 300,000 square meters with more than 140,000 square meters serving as dedicated warehouses. NSD's secure facility located within a highly-protected compound provides customers the assurance that their products remain in a pristine, just-manufactured condition.

LOCATION

NSD's facility is located 26 kilometers (16 miles) from downtown Basra with newly paved roads allowing smooth, rapid movement of cargo from ports of entry to the NSD consolidated storage facility to the oil and gas fields. Conveniently close to NAWAH Port Management's containerized terminal at Al Maqal Port as well as the Ports of Umm Qasr and Khor Zubair, NSD's facility sits at one of the most important commercial corridors in southern Iraq.

NSD SERVICE OFFERINGS

As MRC's exclusive distributor of pipe, valves, flanges and fittings in Iraq, NAWAH Supply & Distribution offers material and logistics solutions that combine:

- Modern, secure storage facility filled with oil servicing products available on a daily basis for customers
- Superior delivery services able to efficiently move material from Iraq's ports to NSD's warehouse to customer sites
- Readily available team of Iraqi and American partners able to tailor best-in-class logistics solutions for each customer, ensuring critical products and services are available with maximum customer convenience
- World-class compliance infrastructure to meet the mandates of the U.S. Foreign Corrupt Practices Act, U.K. Bribery Act and Iran Sanctions Act, ensuring your business operations maintain the highest levels of transparency and ethical standards.

ABOUT MRC GLOBAL INC.

Headquartered in Houston, Texas, MRC, a Fortune 500 company, is the largest global distributor of pipe, valves, and fittings (PVF) and related products and services to the energy industry, based on sales, and supplies these products and services across each of the upstream, midstream and downstream sectors.

Global Supplier of Choice

MODERN, SECURE STORAGE FACILITY

NSD's consolidated storage facility consists of two conjoined warehouses, currently measuring more than 2,160 square meters of product-protecting, indoor storage and 5,000 square meters of outdoor laydown yard storage. Within the warehouse, 1,000 square meters of shelving offers customers five rows high of storage with up to 2,300 kilograms (5,070 pounds) of product on each shelf. The outdoor laydown yard is efficiently equipped with dual gates allowing fast, simple delivery and pick-up. The outdoor laydown yard is entirely enclosed and secured. Beyond the comprehensive perimeter and internal security provided by the logistics compound, NSD's own independent security system leverages both technologically-advanced cameras and manned monitoring, ensuring 24-7-365 security for its operations and customers' products and supplies.

With future expansion potential of up to 11,000 square meters inside and 75,000 square meters outside, NSD's Zubair facility and its potential future sites on the oil and gas fields help provide a seamless supply-chain solution to companies developing Iraq's natural resource wealth. The supply and distribution business also offers customers and clients an urban Basra, Iraq, office to provide a convenient alternative for companies based in downtown Basra.

TRANSPORTATION SERVICES

Complementing its warehousing capabilities, NSD provides customers a robust, door-to-door service to get the right products to the right place at the right time. Equipped with a dedicated fleet of semi-trailer trucks, NSD provides a full spectrum of logistics and distribution services for its customers with pickup and delivery services from ports to the NSD consolidated storage facility to oil and gas fields.
